PsiQuantum

Exploring Quantum Computing

with Construct

A hands-on workshop on **PsiQuantum's Construct**, *a software platform for developing fault-tolerant quantum algorithms*

01 Discuss fault-tolerant quantum computing

02 Learn how to use Construct

03 Solve problems with the PsiQDK

STUDENT RSVP

FRIDAY, DECEMBER 4, 2026

USC Hughes Aircraft Electrical Engineering Center

EEB #248

Open to USC undergraduate and graduate students in quantum and quantum-related fields!
